## CMP Upgrade 2023/24

### CMP Upgrade

This CMP Upgrade lists the changes to the Syllabus, Core Reading and the ActEd material since last year that might realistically affect your chance of success in the exam. It is produced so that you can manually amend your 2023 CMP to make it suitable for study for the 2024 exams. It includes replacement pages and additional pages where appropriate.

Alternatively, you can buy a full set of up-to-date Course Notes / CMP at a significantly reduced price if you have previously bought the full-price Course Notes / CMP in this subject. Please see our 2024 *Student Brochure* for more details.

We only accept the current version of assignments for marking, *ie* those published for the sessions leading to the 2024 exams. If you wish to submit your scripts for marking but only have an old version, then you can order the current assignments free of charge if you have purchased the same assignments in the same subject in a previous year, and have purchased marking for the 2024 session.

This CMP Upgrade contains:

- all significant changes to the Syllabus and Core Reading
- additional changes to the ActEd Course Notes and Assignments that will make them suitable for study for the 2024 exams.

## 0 Changes to the Syllabus

The syllabus objectives across all subjects have been reworded. More detail is given on the IFoA's website at [actuaries.org.uk/curriculum/](https://actuaries.org.uk/curriculum/).

The following syllabus objectives have also been removed:

- 3.2.2 State the Chapman–Kolmogorov equations that represent a Markov chain.
- 4.4.8 Develop census formulae given age at birthday where the age may be classified as next, last or nearest relative to the birthday as appropriate, and the deaths and census data may use different definitions of age.
- 4.4.9 Specify the age to which estimates of transition intensities or probabilities in 4.4.8 apply.
